Sfere

Your 360°

healthcare solution

Everything you need from admission to discharge.

Access and manage all your healthcare data and processes from one single application, using medical records to cover all aspects of care delivery.

Why Sfere?

Modular

Individual applications for each process.

Adaptable

To all types of organizations and processes.

Efficient

Reduce time across all processes and workflows.

Complete Invoices

Control of all billable information.

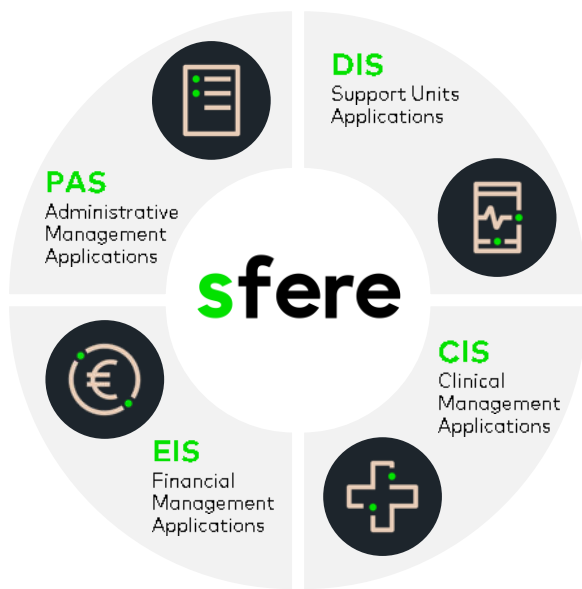

Safe

More control to reduce risks.

Intuitive

Easy to learn and use interfaces.

Administrative, Clinical, Financial and Departmental

Ever-evolving

New needs, new modules.

Web Experience

Access from any device.

Future-Proof

Keep up to date with news developments, both technical and medical.

Why Connectis?

Sfere is the result of Connectis' 25+ years of experience in healthcare. From admission to discharge, it offers everything care providers need to deliver better patient care, with fewer errors and timely interventions to reduce risks in critical areas. It also helps health organizations to control and improve all billing processes while increasing profitability through complete visibility of the expenses associated with the patient's stay.

We invite you to discover the latest and newest technology in medical record management.

About Connectis

Connectis is part of Getronics Group, a global ICT integrator headquartered in the Netherlands, with an extensive history that extends over 130 years. With over 3,700 colleagues across Europe, Asia Pacific, and Latin America, Connectis' vision is to reimagine the digital future, one customer at a time. We do this by leveraging an integrated and secure-by-design portfolio around Digital Workplace, Business Applications, Smart Spaces, Multi-Cloud, Field & Onsite Support, Service Desk, Network Infrastructure, and Security & Compliance, to serve our more than 1,800 customers in both public and private sector. Getronics Group is the leading member of the Global Workspace Alliance. This unique model provides customers with consistent IT services across 185 countries, with one single point of contact and billing entity yet maintaining the local touch and flexibility of a local partner.
